

A: For hotfixes download the provided files from Follow the 3 steps 1-2-3 above. Free Reggae Downloads Digging Deeper into the Dreadful Subject of Reggae Why should you care? Well because we here at Stony Creek are always seeking a way to make you more informed about the sometimes dark subject of reggae and where your money is going. So here are two free reggae downloads to help you out. The first is a brief presentation on Jamaican roots music from a 1993 debate between H.J.Morton and Lester Butler on BBC 2's "Capital Radio". Also a look at reggae and government, the meaning of "tuff", and the sad story of the Queen of Reggae. The other is the documentary "Roots of Reggae" made by the BBC and Thames Television. It was released in the UK in 1993 and is pretty much unheard of out here.

Disclaimer: Please do not download these and play in public. It's like that movie "Dawn of the Dead". Our research is great, but some things should stay in the dark.

Editors note: if you have obtained the full BBC broadcast and find this clip that has the last five minutes of footage by mistake, and want to keep it in circulation then please let us know and we'll replace it. Thanks.

```
return (x0, x1, y0, y1) } // int8Unrounded returns a rounded truncation of v with integral value zero. // Non-integral types are passed through unchanged.
func int8Unrounded(v int8) int8 { x0 := uint64(v) return int8(int8(x0)) } // uint8Unrounded returns a rounded truncation of v with integral value zero. // Non-integral types are passed through unchanged.
func uint8Unrounded(v uint8) uint8 { x0 := v return uint8(uint8(x0)) } // int16 returns v as a two-element array of int16 values, rounding towards // zero. Non-integral
```
